SKILLS

React, Redux, Ruby, Rails, JavaScript, HTML, CSS, SQL

PROJECTS

Study Up   (React, Redux, Ruby, Rails, JavaScript, HTML, CSS, SQL)   Live | Github

Full stack Brainscape clone allowing users to create, search for, and study flashcards.

- Orchestrated RESTful API's enabling the User to take advantage of many features, such as creating, updating, and deleting subjects, decks, flashcards, and follows in a manner which is organized on both the back and front end.
- Created an Authentication system which relied on both front and backend. This system used both salting and hashing techniques and displayed safe database password storage techniques.
- Showcased semantic CSS and HTML and showcased object-oriented-design. Designed with an accessibility first approach.

Tetris   (JavaScript, HTML Canvas, Keylogger)   Live | Github

Tetris clone built using JavaScript and HTML Canvas

- Engineered a fully functioning Tetris game.
- Used Mathematical vectoring system to give shapes rotating functionality.
- Produced algorithms and loops to move shapes and stop as well as to implement the Tetris game logic.

EXPERIENCE

Bartender

Oakland Athletic Club   March 2020 – October 2020

Manager: Daniel Waters (510) 301-8797

- Kept calm and was able to be unfazed by sports day crowds.
- Helped the bar manager to develop cocktails.

Bartender

Almanac Taproom   January 2019 - March 2020

Manager: Chase Henrik (847) 340-8469

- Displayed hard work resulting in my promotion from bar back to bartender within 2 months.
- Great team player who got along with all of my employees and was personable to our guests.
- Showcased an ability to learn quickly, as proven by how quickly I increased my knowledge of craft beer and the beer making process. I started with almost no knowledge and by the time I left I was doing tours of the brewery.

EDUCATION

Web Development - *App Academy | Fall 2014*
